Chisom Muorah

Front-end Developer

I am enthusiastic about software development. Learning, creating and working with great individuals as a team is my goal as a software developer. I am skilled in HTML5, CSS3, BOOTSTRAP, JAVASCRIPT, REACT, and still learning to enhance my skills. I am motivated to scale in an industry that would be a great fit for me, resolve issues relating to Front-end development, satisfy my customers and my web users.
